

## **Net 2000 Ltd. Software Delivery Methods**

### **Evaluation Versions**

All Net 2000 Ltd. software products are available for evaluation for a 30 day period. The evaluation software is fully functional – just time limited. All evaluation software is available for Internet download from Net 2000 Ltd. software web sites. Net 2000 Ltd. will supply the software on CD if requested. During the installation of an evaluation copy of the software an opportunity to request an evaluation key will be presented. The evaluation key will be returned via email and it will unlock the software for the specified evaluation period. The evaluation software comes fully equipped with manuals, tutorials and other documentation in electronic form.

### **Licensed Versions**

Purchased copies of the Net 2000 Ltd. software products are supplied as electronic downloads and also on physical CD media. Unless otherwise requested, a CD is always shipped upon purchase of the software. There is no extra cost for this service. The purchased software product is simultaneously available for download and immediate use. The electronic download of the software is optional.

Non-Expiring license keys which unlock the software are shipped via email on the day of purchase and are also affixed to the CD media. The license key is usable on either of the CD or downloaded versions. The license key permits the download, installation and use of all upgrades and new releases of the purchased software until the end of the purchased support and maintenance period. The purchased license key cannot unlock any software versions released after the expiry of the software support and maintenance period but any versions issued before the expiry period will continue to work indefinitely.

If you have any questions regarding our software delivery methods we would be happy to address them. Please contact us at [Net2000Ltd@Net2000Ltd.com](mailto:Net2000Ltd@Net2000Ltd.com)
